

Weekly Evidence Surveillance - 04/09/2026

Source	Item	Pub Date	Details	Public Health Theme
WHO	Integration of equity into national action plans on antimicrobial resistance: guidance to complement the people-centred approach	02/09/2026	This publication complements WHO's people-centred approach to addressing AMR in the human health sector by synthesizing evidence and expert opinion on equity and providing practical recommendations for integrating equity into national action plans (NAPs) on AMR.	Antimicrobial Resistance (AMR)
WHO	WHO emergency guidance on the use of licensed Ebola vaccine during Bundibugyo virus disease outbreaks, 31 August 2026	01/09/2026	This updated WHO emergency guidance provides recommendations on the potential use of Ervebo®, the only licensed Ebola vaccine, during outbreaks caused by Bundibugyo virus (BDBV).	Vaccination Preventable Disease Guidance
WHO	Urban yellow fever risk management: handbook for national preparedness and response planning	31/08/2026	This handbook provides practical guidance to help countries prepare for and respond to the risk of urban yellow fever outbreaks. It highlights that even a single yellow fever case in an urban setting can signal a potential public health emergency where Aedes aegypti mosquitoes are present and population immunity is low.	Environment & Health
UKHSA	Ebola and Marburg haemorrhagic fevers: outbreaks and case locations - GOV.UK	03/09/2026	Map and risk assessment updated.	Emerging Infectious Diseases
UKHSA	Keep your vaccines healthy poster and magnet - GOV.UK	03/09/2026	The poster and magnet have been updated with a new design and product code, with no change to the content itself.	Vaccination Preventable Disease Guidance
UKHSA	Mosquito Watch: submit a mosquito - GOV.UK	03/09/2026	Amended 'Key statistics' section to say one invasive species has now been detected.	Environment & Health
UKHSA	Invasive mosquito species detected in east London - GOV.UK	03/09/2026	UKHSA finds invasive Aedes aegypti breeding in east London, prompting enhanced surveillance.	Environment & Health
UKHSA	Flu vaccines: 2026 to 2027 flu season - GOV.UK	03/09/2026	Updated for the 2026/2027 flu season.	Vaccination Preventable Disease Guidance
UKHSA	AI sleep data could provide one-week early warning of flu and COVID-19 - GOV.UK	03/09/2026	UKHSA study finds sleep app cough data can detect respiratory illness and signal outbreaks early.	Cross-Cutting / Other Public Health Topics
UKHSA	Salmonella outbreak update - GOV.UK	03/09/2026	Updated. UKHSA, alongside the Food Standards Agency and other public health partners, continues to investigate an outbreak of Salmonella in the UK.	Emerging Infectious Diseases

UKHSA	Engagement guide for infection and antimicrobial resistance (AMR) - GOV.UK	03/09/2026	A UK-wide collaborative guide giving engagement and communication approaches to raise awareness of AMR and promote behaviours that prevent infection and reduce resistance.	Antimicrobial Resistance (AMR)
UKHSA	Mosquito control - GOV.UK	03/09/2026	Updated with UKHSA version	Environment & Health
UKHSA	Health Protection Report volume 20 (2026) - GOV.UK	02/09/2026	A third reference to the S. Enteritidis news item was inserted.	Emerging Infectious Diseases
UKHSA	Malaria RL: reference, diagnostic and advisory services - GOV.UK	01/09/2026	Updated telephone number for NaTHNaC advice service	Emerging Infectious Diseases
UKHSA	Find out who is approved to access UKHSA data for research and other secondary uses - GOV.UK	01/09/2026	The Data Access Approvals Register sets out the organisations that the UK Health Security Agency (UKHSA) has approved to access data for specific secondary purposes.	Cross-Cutting / Other Public Health Topics
PH Ontario	Viral Hemorrhagic Fevers Public Health Ontario	31/08/2026	Updated 31 August 2026.	Emerging Infectious Diseases
PH Ontario	Viral Hemorrhagic Fever (VHF) Clinical Risk Assessment Tool	28/08/2026	Updated. The purpose of this tool is to support clinicians in conducting a comprehensive three-section clinical risk assessment for VHF to evaluate the patient's clinical presentation, travel to areas with endemic VHF or suspected / confirmed outbreaks, and relevant exposures within 21 days of symptom onset.	Emerging Infectious Diseases
HIQA	Cochlear implants for adults: Health technology assessment HIQA	01/09/2026	Protocol. In this health technology assessment, HIQA will look at the clinical and cost effectiveness of expanding the criteria for cochlear implants so that more adults with hearing loss have the option to get a cochlear implant.	Cross-Cutting / Other Public Health Topics
PHS	iGAS investigation trawling questionnaire - Publications - Public Health Scotland	04/09/2026	This surveillance form should be completed for all positive laboratory reports of invasive Group A Streptococcus.	Public Health Systems & Tools/Policies/Reviews
PHS	Community Acute Respiratory Infection (CARI) request form - Publications - Public Health Scotland	03/09/2026	Virology request form to be completed once a swab has been taken for CARI surveillance.	Public Health Systems & Tools/Policies/Reviews
PHS	Theory of Change - Anchors and community wealth building - Publications - Public Health Scotland	01/09/2026	The Theory of Change describes how action across the community wealth building pillars can contribute to stronger local economies, reduced inequalities and improved wellbeing.	Cross-Cutting / Other Public Health Topics
PHS	Integrated impact assessment: Meningitis B – vaccination for school	28/08/2026	This integrated impact assessment is for the implementation of an urgent, time-limited meningococcal B (MenB)	Public Health Systems &

	leavers and entrants to higher education or residential further education programme - Publications - Public Health Scotland		vaccination programme. This programme is aimed at some older teenagers and some new college and university students who are at higher risk of invasive disease caused by meningococcal group B bacteria.	Tools/Policies/Reviews
IDSA	Threats to infectious diseases research leave our country at significant risk	03/09/2026	IDSA and HIVMA are concerned by a notice released Aug. 28 by the National Institutes of Health announcing a proposed overhaul of the National Institute of Allergy and Infectious Diseases' clinical research program with few details and a brief comment period.	Public Health Systems & Tools/Policies/Reviews
IDSA	Talking to patients about raw milk: What clinicians should know	31/08/2026	Raw milk consumption appears to be rising. A June 2026 ProPublica investigation reported that as many as 10 million Americans drink raw milk. Like rejecting vaccines or using ivermectin, consuming unpasteurized dairy has become a symbol of today's health-freedom movement.	Public Health Systems & Tools/Policies/Reviews
IDSA	More than a curbside consult: Quantifying the value of ID pharmacists	03/09/2026	Earlier this year, a study published in Clinical Infectious Diseases examined that relationship and its impact on patient care.	Cross-Cutting / Other Public Health Topics
Evidence Alerts		Latest alerts	Azithromycin with or without cefixime for suspected or culture-confirmed uncomplicated typhoid fever in Nepal, Bangladesh, and Pakistan (ACT-South Asia): a double-blind, parallel-group, randomised, placebo-controlled, phase 4 trial. Lancet Infectious Diseases. Tagged for: Infectious Disease, Tropical and Travel Medicine Epidemiological impact of a dual-action insecticidal coating applied to Aedes aegypti breeding sites on dengue transmission in Colombia: a cluster-randomised trial. Lancet Infect Diseases. Tagged for: Infectious Disease, Public Health, Tropical and Travel Medicine	Public Health Systems & Tools/Policies/Reviews
WOAH	Foreword – Vaccines in action: building more resilient animal health systems through innovation and cooperation - WOA - World Organisation for Animal Health	29/08/2026	The latest issue of WOA's Scientific and Technical Review – Vaccines in action – brings together a collection of articles that reflect these evolving realities. The content of this issue illustrates the complexity of vaccination systems, which involve science, policy, economics, behaviour, governance and international cooperation.	Cross-Cutting / Other Public Health Topics
WOAH	The role of vaccination in managing high pathogenicity avian influenza in the turkey market of the United	28/08/2026	This study applies a structured analytical framework to assess control strategies for high pathogenicity avian influenza (HPAI) in the turkey industry of the United States of America.	Cross-Cutting / Other Public Health Topics

	States of America - WOA - World Organisation for Animal Health			
IAEA	What is Environmental Remediation?	04/09/2026	Environmental remediation aims to protect people and the environment by reducing radiation exposure from soils, sediments, surface water, groundwater and biota that have been contaminated by radioactive material from legacy sites.	Environment & Health
IAEA	Atomic Technologies Licensed for Applications at Sea (ATLAS) Launched	28/08/2026	The IAEA has launched ATLAS (Atomic Technologies Licensed for Applications at Sea), a new initiative focused on nuclear technologies at sea.	Environment & Health
DAFM	Minister Heydon opens Ireland's first on-farm integrated grass-biorefinery and anaerobic-digestion demonstration plant	01/09/2026	Minister for Agriculture, Food and the Marine, Martin Heydon TD, today officially opened Irelands first on-farm demonstration plant integrating grass biorefining and anaerobic digestion at the Shinagh Estates Demonstration Farm, Co. Cork.	Environment & Health
